Bold=Primary Contact

Responsibilities:

Steering Committee:

Agencies on the Steering Committee represent major property owners and transportation agencies in the study area. These agencies also might have provided financial assistance to the project.

Cooperating Agencies:

A Cooperating Agency is defined in CEQ regulation 40 CFR 1508.5 as any Federal agency, other than a lead agency, that has jurisdiction by law or special expertise with respect to any environmental impact involved in a proposed project or project initiative. A State or local agency of similar qualification or, when the effect are on lands of tribal interest, a Native American tribe may, by agreement with the lead agencies, also become a cooperating agency.

Participating Agencies:

Participating Agencies are defined by SAFETEA-LU 23 U.S.C 139(d) as those with an interest in the project. The standard for participating agency status is more encompassing than the standard for cooperating agency status described above.

* Cooperating agencies are, by definition, participating agencies. However, not all participating agencies are cooperating agencies.
